MINT BAGS BRONZE AT ADOBO DESIGN AWARDS ASIA 2018

Natalie Ampil, a graduate of the Multimedia Arts program of MINT College, won bronze in the Open Category of the adobo Design Awards Asia 2018.

Ampil's entry, Unhinged was her thesis during her senior year at MINT College. It was designed as a tool to help stimulate creative motivation for artists who are struggling with finding inspiration. Ampil's Unhinged and Rico Ireneo's Manila Electric Transport were among five finalists that also included two entries from DLS-College of St. Benilde, and one from DLSU-Dasmariñas.
